

GREEN LAKE RESIDENTIAL STAFF PROGRAM

S.A.L.t. Team Program Leader: Lisa Simmons

Lisa finds energy, positivity and enthusiasm working with young adults. She has a passion for discipleship, missions (wherever God leads) and equipping others for their work of ministry.

Before early retirement, Lisa served as the Director of Discipleship Ministries for the West Virginia Baptist Convention assisting regional churches in discipleship ministries for all ages. She also served as the Associate in Mission Support for the same convention and worked with missionary partnership teams and networks, cross cultural young adult teams, missionary deputation, mission education and conferences. She has had the opportunity to work in discipleship and spiritual growth in several countries and has recently taught English as a Second Language for adults at a local college.

Serving with International Ministries as a missionary in Thailand, she worked specifically with the Lahu people group in discipleship. She also worked with a cross tribal young adult group. She has been an International Ministries special assistant in Missionary Partnership Teams and Networks.

She finds it a great blessing to listen and learn about people, assist them in hearing what God has to say to them individually and prepare them for the great adventures ahead on their Christian journey!

Lisa lives in West Virginia with her husband John.
